COMPETENCY BASED QUESTIONS
(CASE BASED QUESTIONS)

I. Read the given paragraph and answer the questions that follow.

Food can be cooked by boiling, baking, frying, roasting, grilling and steaming. In frying, food is cooked in hot oil or ghee. We make samosas, puris, pakoras and finger chips by frying in a wok. This is called deep frying it requires a lot of oil. Parathas and dosas are fried on a griddle with less oil. This is called shallow frying. Frying is not a healthy way of cooking as the food becomes is rich in fat.

Q1 Why frying is not healthy way of cooking?

Q2 Name any 2 healthy ways of cooking?

Q3 Name any 2 dishes prepared by deep frying.

Q4 Write a utensil in which deep frying is done.

II A clean house is the responsibility of each member of the house. We can keep our house clean by removing dust everyday. Make sure there are lots of doors and windows to allow fresh air and sunlight to come in. Sunlight helps to kill germs. Put wire mesh on doors and windows to prevent entry of mosquitoes and pests like rats, cockroaches.

Q1 Define the term pest?

Q2 Name any 2 pests.

Q3 Why do we put wire mesh on doors and windows?

Q4 Write one way in which pests harm us?

III Water is necessary for plants and animals. Plants absorb water from soil through their roots. They use it to make food and transport nutrients to different parts of their body. Animals need water to drink and bathe. Water is home to many aquatic animals like fish, octopus.

Q1 What are aquatic animals?

Q2 How do plants absorb water?

Q3 Write any one way to save water

Q4 Choose the odd one out and give reason for your choice.

Octopus Starfish Dolphin Cat
